

Glentree Homes

Your complete sales platform — one system that answers every enquiry, shows every villa, and tells you exactly who is ready to buy.

Glentree Serenity · Nadergul, Hyderabad

01

Voice Agent

An AI sales caller that speaks to every lead, personally.

- Calls a new enquiry within minutes — while they are still interested.
- Speaks naturally in English, Hindi and Telugu, and switches to whichever the buyer prefers.
- Answers real questions about the project, the villas, pricing and the location.
- Books site visits during the call and puts them straight into your calendar.
- Learns what each buyer actually wants — budget, timeline, family size, why they are buying.
- Sends the brochure, floor plan or location on WhatsApp the moment the call ends, if they asked for it during the conversation.
- Writes a full summary of every call into your records, so nothing is forgotten and no one has to take notes.
- Works evenings, weekends and festival days — and calls a hundred people as easily as one.

02

WhatsApp Agent

An always-open conversation with every buyer.

- Replies instantly, at any hour, to every message — no enquiry waits until morning.
- Sends brochures, floor plans, price sheets, photos and the exact location on request.
- Books site visits and passes the details to your sales team.
- Remembers the whole conversation, so a buyer never has to repeat themselves.
- Your team can take over any chat with one tap, and hand it back when finished.
- Start a conversation with new numbers in a few clicks — the agent carries it from there.
- Every chat, from every buyer, visible to your whole team in one place.

03

Villa Showcase

Let buyers walk the property before they ever visit.

- An interactive 3D view of the tower — buyers explore floor by floor.
- Step inside individual villas and see the layout and proportions.
- 360-degree views of the rooms, the amenities and the surroundings.
- Live availability across all units, so buyers only ask about what is genuinely free.
- Clear floor plans and layouts for every villa type.
- Shareable straight into a chat — the buyer explores it on their own phone, in their own time.

04

Lead Records & Analysis

Know exactly who is ready to buy, and why.

- Every call and every conversation becomes a complete lead record, automatically.
- Each lead scored hot, warm or cold — your team spends its day on the right people.
- The full journey visible in one view: first message, site visit, negotiation, booking.
- See which sources bring your best buyers, so your marketing money follows results.
- Track site visits, bookings, payments and revenue as they happen.
- See how each member of the sales team is performing.
- Nothing depends on somebody remembering to write it down.

05

Publishing & Marketing

One place for everything you put out into the world.

- Create a post once and publish it to all your accounts together.
- Video and images, sized correctly for each platform automatically.
- Plan the month ahead on a single calendar.
- See how every post performed, side by side.
- Manage reviews and your local presence in the same system.
- Ideas and drafts ready when you need something to publish.

How it all fits together

An enquiry arrives	The agent responds	The buyer explores	A visit is booked	Your team closes
From an ad, a portal, a walk-in or a call	By voice or on WhatsApp, within minutes	Brochure, 3D showcase, live availability	Straight into your calendar	With the full history in front of them

Every step is recorded automatically. Your team sees one clear picture of every buyer, from the first hello to the booking.
